

STEFAN NAM BEAN**AGE: 54**

Appointed Orange County Superintendent of Schools

It has been my honor to serve for nearly two years as your County Superintendent of Schools. This nonpartisan role requires steady, experienced leadership, collaboration, and an unwavering commitment to students and districts we serve.

In my first year, we launched a strategic plan focusing on:

- Academic excellence
- Student success
- School and student safety
- Career-technical education and skilled trades

With our local school communities, we support over 425,000 students across Orange County. Our county outperforms state averages in English language arts and mathematics.

Our priorities are clear:

- Strengthening mental health supports
- Advancing school choice options for families
- Integrating artificial intelligence responsibly and ethically
- Protecting taxpayer dollars through fiscal discipline

As County Superintendent, I serve foster and homeless youth, juvenile justice wards, and children with physical, mental, and social-behavioral needs, and I advocate for them with personal understanding.

Unanimously endorsed by the County Board of Education and Sheriff Barnes, we partner with law enforcement to advance school safety, address substance abuse, and promote student well-being.

From an orphaned disabled child in Saigon to serving as your Superintendent, my life affirms every child deserves opportunity, dignity, and hope.

Thank you for your support.

Stefan Bean, Ed.D.
