

UNITED STATES REPRESENTATIVE, 45TH DISTRICT

NAME: DREW E. LEAVENS **PARTY: DEMOCRATIC**
OCCUPATION: Educator/Businessman **AGE: 61**

Drew Leavens believes in representing the people of Orange County, not special interests. His campaign is about meeting the people and discussing their concerns. If elected, he plans to conduct no less than three town hall meetings inside the district every year.

Drew is fiscally moderate but socially progressive. He is pro-choice, believes in sensible gun control, public education, women's pay equality, LGBT rights, passing the immigration bill, improving Obamacare, mitigating climate change and retaining Medicare and Social Security in their current form.

He's concerned about income inequality, stagnant wages and high taxes on middle class families. He supports labor and raising the minimum wage. Drew supports our military, their families and veterans. He believes the poor, homeless and disadvantaged also deserve representation.

Drew Leavens worked in county mental health and was also a marriage/family therapist. For the last 29 years he's managed his own educational company, training clients from government, mental health, law enforcement, universities and corporations. He has edited four books and published six.

As a businessman, he knows that businesses need predictability and consistency. Debt crises, sequesters and government shutdowns hurt business. There is tremendous waste in government, both wasteful programs and wasteful practices. Eliminating waste would save taxpayers and reduce the deficit.

Congress must do better. Obstruction isn't the solution. Special interests have their voices heard in Washington. Shouldn't the Representative of District 45 actually represent the interests of those who live here? Drew Leavens will do just that. He asks for your vote.
