

UNITED STATES REPRESENTATIVE, 46TH DISTRICT

NAME: JOHN J. CULLUM PARTY: REPUBLICAN
OCCUPATION: Business Owner/Accountant AGE: 46

As Californians, we are challenged more than ever by the economy, unemployment and increasing taxation. As government continues to grow and have more control over each of us, our problems increase. We must confront today's challenges. To make America a great nation again, we need new leadership and I believe I am the answer. I have a non-partisan approach to work with Republicans, Democrats and Independents.

As your Representative my top priorities are:

- Strengthening the Economy and Jobs
 - Focusing on Small Business / Reducing Regulations
 - Revitalizing Manufacturing and California Agriculture
- Health Care
 - Protecting Patient Choice
 - Interstate Insurance to Keep Costs Down
- Reducing Government Spending / Smaller Government
 - Requiring a Balanced Budget / Spending Cap

I can't emphasize enough the importance of Education. Our children are the future of this great nation. As I speak with families, they expect better education that focuses on Math, Science and Technology. They want these advantages for their children and grandchildren. Let's work together to make this happen.

I will work for you and the America people to find common ground to address these concerns and provide results, not excuses. I have the qualifications. I have a family. I have extensive experience in the Energy and Banking industries. I understand the strategic and financial requirements of moving forward and getting results. I am a Leader; I am a graduate of the Advanced Leadership Institute at Harvard Business School. Together we can make a real difference. I am asking for your vote! Vote for John Cullum!
