

TONI SMART

CPA

I am Tonette (Toni) Smart and my experience includes 22 years as an Internal Auditor and Accountant in Orange County and City government. The Auditor-Controller is a financial leadership role that should operate lean and efficiently so that Taxpayer dollars are going towards mission critical services this County provides to its citizens for safety, homelessness, infrastructure, etc. I will serve the County citizens and ensure there is a proper system of checks and balances over the billions that pass through the various County programs.

Over the last 15 years, I held several Executive Auditing and Accounting positions. I last served as the Director of the Auditor-Controller Internal Audit Division performing critical reviews of the County's information technology, internal controls, and fiscal monitoring. One audit identified \$300,000 in vendor fraud, others found millions due by third parties. I also served as the Auditor-Controller Accounting and Reporting Manager responsible for the County's financial statements, general accounting, and reporting \$600 million in Federal expenditures. I implemented government accounting standards that resulted in recording billions in a net pension liability on the County's financial statements.

I am a long-time resident of Tustin where I reside with my family. I am a CPA, not a politician. It would be my privilege to serve as Auditor-Controller!
