**Subject:** RE: Response to OC RAV Bob Page Request to Review Voter Validity Study

Mr. Hoft:

The team at the County of Orange Registrar of Voters is very capable of reviewing the work of United Sovereign Americans. I see no need to provide you with the resumes of my team in order to receive a copy.

However, to address any concern you may have about bias, I would suggest that this study be reviewed as well by an independent panel of academic experts. I have already contacted Professor Justin Grimmer at Stanford and Professor Mike Alvarez at Caltech who expressed willingness to assemble just such a review panel.

Please provide me a copy of the United Sovereign Americans study at your earliest convenience.

Thank you.

Bob Page | Registrar of Voters | Orange County Registrar of Voters

**Subject:** Response to OC RAV Bob Page Request to Review Voter Validity Study

Mr. Page,

As you know we reported in an article released on Friday, April 4, 2025 about material deficiencies where one-fifth of the voters in the 2024 Election in Orange County were non-citizens, invalid, or phantom voters - <https://joehoft.com/breaking-exclusive-shocking-report-results-indicate-that-one-fifth-of-the-voters-in-the-2024-election-in-orange-county-ca-were-non-citizens-invalid-or-phantom-voters/>

As you also know this received the attention of Elon Musk who retweeted the article - <https://joehoft.com/elon-musk-retweets-article-showing-one-in-five-voters-in-orange-county-were-non-citizens-invalid-or-phantom-voters/>

In response, you stated:

Joe:

If you provide a copy of this study to the Registrar of Voters, we will review the study and the methodology used to extrapolate the conclusions it reaches so that we can determine if it identified any concerns we should address.

Thank you.

Bob Page  
Registrar of Voters  
County of Orange

Our concern with your offer is that your team will not understand the work perform or the analysis accomplished. To give you an idea of the caliber of expert needed to perform such work, I have attached a document identifying the resume of Mr. Harry Haury and of the team of professionals involved in this work. (See Attached)

Can you please provide the details of the individuals who will be involved in looking into our work? Also, if this team requires assistance in understanding the particulars, please feel free to ask.

Sincerely,

Joe Hoft
