

PAUL LUCAS
STATE ASSEMBLY, 68TH DISTRICT

www.PaulLucas2006.com

As a proud fourth-generation Orange County resident, I am committed to representing our interests in Sacramento. I will not sit by and tolerate big government in any form, whether through eminent domain abuse or intrusive pre-sale home inspections; your concerns are my concerns.

We owe our children the great schools we grew up with. For two years I sat on the Curriculum and Instruction Council at Santa Ana College and worked to develop much needed courses in job skill development. I will not sit by while scandals plague our school districts. Our schools must increase our children's test scores and English skills.

We owe our children the world-class beaches we once had. Our coastline is one of our greatest resources for recreation and our tourism economy. That's why I work professionally reducing urban runoff and why I spent two years on the Surfrider Foundation Steering Committee. We need to maintain a clean, safe and healthy environment, from our forests to our freeways. Traffic congestion robs us of family time and decreases our quality of life.

We owe it to our children and our future to bring our taxes back to the district so we are no longer a donor county. We need our tax dollars for local use; they shouldn't be going outside our area. The cost of living is already outrageous; by aggressively combating insurance fraud, I will bring health insurance costs down for every citizen.

It's time for neighbors to take a stand for Orange County.
