

**VAN TRAN
STATE ASSEMBLY, 68TH DISTRICT**

Name: Van Tran, California State Assemblyman

When I first ran for Assembly, my agenda was to bring the luster back to our Golden State. There is still much to do, but I am proud of the work I've started.

Traffic is one of the biggest problems we face in Orange County. The hours stuck on old, over-used freeways rob us time we should be spending with our family. Last year was the first year we fully funded Proposition 42, the Traffic Relief fund, bringing millions of dollars in road construction and improvement. This is a priority we must maintain to keep a vibrant economy.

To stretch our dollars further, I authored Assembly Bill 462, which removed duplicative approval procedures for projects on our state highways. I am committed to cutting needless bureaucracy and getting our freeways built.

I am also committed to holding the line on taxes. Our budget problem is not that there isn't enough money. Sacramento has a spending problem. We need to change how budgets are made in the Capitol. Instead of taking last year's programs and growing them, we should look at how much revenue is expected and allocate that money based on the priorities of our state. Education, public safety and infrastructure are all priorities I am focusing on.

It has been an honor serving you the past two years. Please, if you have any questions. email me at Van@TeamTran.com. Thank you for your vote.
