

**MICHAEL G. GLOVER**  
**STATE ASSEMBLY, 70TH DISTRICT**

The Democrat Party asked me to run for Assembly and I accepted. I am an experienced legislator (7 years, Kansas), veteran (U.S. Army), City Prosecutor/Assistant City Attorney in Kansas and Colorado, and Chairman of the Kansas Crime Victims Reparations Board. For 18 years I have defended California employers' workers' compensation cases. I own my law firm in Laguna Hills.

Orange County needs a member of the majority party in the Assembly with more legislative and legal experience to give the county and Cities more influence in the Assembly.

Orange County needs law enforcement experience in the Assembly to solve the "prison crisis." We need to incarcerate criminals who commit crimes against people and property, while safely enabling non-violent offenders to work and pay taxes. Marijuana should be legal and taxed for adults, maintaining current prohibitions on public intoxication and driving under the influence.

We need cooperation between local, state and federal authorities to enforce immigration laws. Except for emergencies and children, public services should only be available to those with "legal status" or the ability to pay.

My two children graduated from local schools and California Universities. I will legislate to provide for the education, health, welfare, and safety of Orange County children. I will work for more state investment in our schools, environmental protection, and affordable healthcare.

I am pro-choice and believe in personal responsibility.

I will reduce the deficit by cutting waste and enacting a bi-annual budget. I will promote economic growth and create jobs, thereby increasing revenue.
