

**JILL E. CASE
CAPISTRANO UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER
TRUSTEE AREA 4**

I believe in the difference between right and wrong and my moral compass will always point to right, regardless of political gain. God willing, if elected to CUSD's school board, I will protect our children and money with all the expertise and knowledge that my 25 years as a business manager have brought. I formed Advocates for a Better America, a non-profit corporation, to protect the individual against wrongdoing and I will protect our school district with the same resolve.

Children come first. It appears that this priority has not been the main concern of the present board. I will visit every school and attend PTSA meetings. I will respond to every communication I receive. I will push for term limits. I will shine the light of day on the school finances and board actions. I will bring transparency back to CUSD and will spend our tax payer dollars as if they were from my own wallet. I am lucky to have the total support of my husband and my two children and they understand the demands needed to fix our problems and heal our community. Elect me and let the healing begin.
