We need reform at CUSD.

Reckless deficit spending has created a self-inflicted, multi-million dollar budget crisis that puts our children at risk and resulted in massive program cutbacks - - severely diminishing the quality of education.

I oppose the reckless spending of \$52,000,000 for a luxurious new administration building - - while schools are in dire need of repair and students are crammed into substandard portable classrooms.

As a mother, I care deeply about children. I will ensure every child receives an excellent education in a safe, sanitary school.

I work with many community and charitable organizations.

I speak four languages and have tremendous respect for all people and cultures.

Having been President/CEO of a software technology firm, I am a proven leader and will be a wise steward of your taxes, watching every penny to improve student learning.

For years, I have worked closely with local, state and national elected leaders to improve our community - - I know how to make things happen.

As your advocate, I will support policies that promote and enhance:

- maximum academic achievement;
- collaboration between teachers, administrators and parents;
- adequate classroom supplies; and
- lower taxes.

I will restore honesty, integrity and accountability to CUSD.
