

**KATHLEEN LE BON
CAPISTRANO UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER
TRUSTEE AREA 7**

Change is long over due. We will have a new Superintendent; in addition, 3 school board member seats are up for election. The community deserves a board that will conduct its business in a transparent way. The public should know how each board member voted... not always 7 - 0. If I am elected, I will champion causes that increase funding for programs and facilities allotted directly to the classrooms and students. The current board chose to construct an administration facility in excess of \$50 million, while aging campuses went without capital improvement funding, and students without additional educational aids.

My qualifications include 4 college degrees, the most recent a Master's in Nursing. I have been a nurse for 24 years specializing in care for children. I am a mother and wife whom has been part of the Capistrano community since 1994. I will improve and streamline programs and at the same time reduce legal expenditures, as CUSD is 2nd in California for litigious hearings regarding students. With your support and vote you will be endorsing a change to the status quo that has prevailed for many years.
