

**LAN QUOC NGUYEN
GARDEN GROVE UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

When I first ran for this Board, my theme was: Academic Excellence, Parental Involvement and Accountability. My focus on these areas has brought significant changes to the District.

For academic excellence, GGUSD has received top national Broad Urban Education Award three years in a row. The District is known nationally for its high academic achievement. Test scores have continued to rise every year. The pre-school program has been more than doubled and now serves over 1,000 students, mostly from low-income families.

In terms of parental involvement, GGUSD has dedicated full-time staff to work with parents to improve their participation. We've enhanced our ability to reach out to parents through media, Internet technology and increased community interaction.

To provide greater accountability, board meetings are now more accessible to the public. Agendas, minutes and audio recordings of meetings are now posted on the GGUSD's web site. Our staff is more responsive to parents and community members because I make it a point to personally respond to every complaint I receive.

There is still work to be done. I am honored to receive your vote so we can continue the positive trends we have started. For more information, please visit www.lannguyen.com
