

**TERRY KRIEGER
LOS ALAMITOS UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

Are you happy with the way our school district is being run? If you are, then don't vote for me because I am not happy with it. Other school districts are increasing their budgets and expanding programs. Ours is slashing vital programs and teachers. Our children deserve better. We have top quality teachers, committed parents, and children who come to school ready to learn. But that's not enough. We need a school district that anticipates issues and heads off financial disasters. Our administrators have failed us.

We need a school board that will conduct broad oversight of the district. They also need the will and courage to address past deficiencies and to fix the budgetary problems, without approving of the slash and burn techniques of the past. Teachers, parents, and the board must work as partners to determine spending priorities. We must restore instructional programs, small classes, and the arts. I want to provide effective fiscal oversight of all district expenditures. I promise to be the voice of the parents, students and employees, and to be visible, approachable, and available at all times. I ask for your support in my quest to make our district the very best.
