

**DENISE BITTEL
ORANGE UNIFIED SCHOOL DISTRICT
GOVERNING BOARD MEMBER
TRUSTEE AREA 4**

Occupation: Businesswoman

The quality of the future of our community, is dependent on how we educate our students of today.

For twenty-two years, I have lived with my husband and three children in the Orange Unified School District. I have volunteered on numerous committees both in the school district and in the community, while owning my own small business.

In order to secure our future, I will execute fiscal responsibility for our taxpayers, and direct that reduction of students in our classrooms. With the number of students in classrooms increasing from 32 to 44. I believe that we are not giving our students the educational experience they need to be prepared for the global economy. I will establish a "Fiscal Oversight Committee" comprised of community members to "check and balance" the financial expenditures of the district.

My volunteer activities include being a member of the Orange Rotary, the Legislative Coalition the Community Foundation of Orange, the President of the Orange Education Foundation, a Bereavement volunteer at my church, a parent group president at three schools, a member of the curriculum council, and the facilities advisory committee.

I am committed to improving our future.
