

**ANNA PIERCY  
ANAHEIM UNION HIGH SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

I recently retired after 37 years as a classroom teacher in the Anaheim Union High School District. This experience gives me an insider's view of what our schools are facing. I was an elected official—mayor and councilwoman of Cypress for eight years, as well as serving on several county boards of directors. This range of experience will help me as a school board member keep the AUHSD the great district it was before its present problems. I will: guide the district through completion of the current modernization of school facilities; provide effective fiscal oversight of all district expenditures; coordinate with our cities for after school activities for our students; provide educational opportunities for all students, including keeping all the arts—fine, practical, and vocational—as part of our educational curriculum; and make the safety of our students on every campus a top priority.

The Board of Trustees should operate openly, fairly, and clearly. As a board member I promise to be the voice of the parents, students and employees of the district. I promise to be visible, approachable, and available at all times. Please give me your vote.
