

**ROBERT A. "BOB" SINGER
FULLERTON JOINT UNION HIGH SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

Occupation: Defense Electronics Manager

As your Trustee and a District parent, my priorities are quality education for every student and effective utilization of taxpayer funds.

My leadership strengthened curriculum and classroom instruction, improved educational programs, and raised standards. I helped initiate nationally recognized Troy Tech and encouraged academies in fine arts, business, agriculture, medicine, and culinary arts. I worked to reduce English class sizes, establish academic summer school, and upgrade science and computer laboratories. College and vocational preparation was extended to more students. Test scores and school rankings among similar schools have risen significantly, and attendance was among the county's highest. Five schools and our continuation school earned California and/or national honors.

I assured sound financial management, resulting in the highest possible bond ratings, which reduced taxpayer payments. Administrative costs were cut to increase investment in the classroom. New classroom buildings were constructed at each comprehensive high school on time and within budget.

I initiated our highly regarded accountability system and worked for open enrollment allowing parent and student choice. I emphasized strong communications, trust, and partnership with teachers, parents, students, and community. Survey results show satisfaction with our schools, District, and Trustees.

I believe my record merits your vote.
