

**MARILYN BUCHI  
FULLERTON JOINT UNION HIGH SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

A quality educational program for every student, responsible expenditure of district funds, and a safe school environment that promotes respect, responsibility, and success are the standards of my trusteeship of the Fullerton Joint Union High School District.

An educational and professional background in math and computers supports my ability to participate fully in the analysis necessary to be an effective board member. Volunteer work with PTA and other community organizations, acknowledged by the Chamber of Commerce selection as a Woman of the Year, heightens my awareness of the opinions and expectations of those the district serves. My elected positions on the Delegate Assembly, Board of Directors, and as president of the California School Boards Association have provided an opportunity for statewide efforts on behalf of our students and our schools.

I will promote expansion of our outstanding academic and career programs, the development of new educational opportunities essential for student achievement in the 21st Century and support for a professional staff to accomplish both.

The public has a right to expect quality and accountability from its schools. As your trustee, I commit to insuring that quality and accountability remain integral to education in the Fullerton Joint Union High School District.
