

**CELIA JAFFE
HUNTINGTON BEACH CITY SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

Educational excellence in Huntington Beach schools is my goal and expectation. High test scores, state and national awards, and individual student accomplishments already reflect good quality education in our district. But I am pushing forward to do even better, to find more effective curriculum materials and teaching methods, to address more specifically the needs of each student.

Fiscal prudence and accountability to the community are key requirements of the governing board. I closely examine all financial items. I consider long term effects. I initiate discussion on important matters during open meetings and seek public input.

My experiences and qualifications include 19-year resident of Huntington Beach; M.A. in education from Stanford University; 5 years teaching experience; past president of Huntington Union Council PTA, Eader PTA, Peterson School Site Council, and Sowers PTSA; past vice president of Huntington Beach Education Foundation, and current vice president of Edison PTSA.

I work hard to represent you, the community, in our schools. Diligence, energy, knowledge, and integrity are qualities I bring to bear on this job of forging the best future for our schools and our children.
