

**TRACY PELLMAN
OCEAN VIEW SCHOOL DISTRICT
GOVERNING BOARD MEMBER, FULL TERM**

Occupation: School Board Member/Registered Nurse

Sixteen years ago I ran for the OVSD board because I felt the quality of education for my children was deteriorating. I was elected because of overwhelming support from community leaders and the parents of school children. As a governing board member during these last four terms I have repeatedly promised to be child oriented, fiscally responsible, and accountable to the community. I have faithfully kept my promises despite pressures from special interest groups.

These sixteen years have given me a great deal of experience. I have witnessed both good and bad governance. I have worked hard to improve the educational experience of children in our community. I have worked hard to be fiscally responsible and balance the budget despite some difficult economic times.

My husband, a pediatrician, and I have lived in the school district for thirty years. All five of our children have attended public schools. A good public school system enhances property values, promotes civic pride, and reduces crime.

Once again, I pledge to:

Remain child oriented and focused on classroom.

Focus on fiscal responsibility, quality education, and safe schools.

Remain accessible to the community.

Thank you for your support. Pellman4schoolboard@earthlink.net
