

**DIANA DUONG MENDEZ
WESTMINSTER SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

I believe that effective communication among school, parents, and students will play an important role in students' achievement of high quality education and moral respects.

The low academic performance of the majority of Westminster students propelled my decision to run for school board to help Westminster students achieve English and Math proficiency according to their levels or higher levels. Reading, writing, and arithmetic will be my primary concerns.

During my twenty years of residing in Westminster City, teaching and helping students, working with children, and raising my two daughters, I've experienced the great learning potential in the diverse young people of our city.

I obtained my BS in Computer Science from UCR while being employed by the Westminster School District as a Para-educator. I was also a parent volunteer. Presently, I'm a Community Liaison Worker for the GGUSD and a Eucharist Minister at Blessed Sacrament Church in Westminster.

It's time for fresh air in our school district. Let's focus on Westminster children's education. Our students need academically focused and diligent leaders with high quality educational programs for their success. It's time to serve our children properly.

Westminster students' futures depend on Westminster voters.
