

**JOHN CHAFFETZ
CITY OF DANA POINT
MEMBER OF THE CITY COUNCIL**

Victims Rights Advocate

Since 1997, I have enjoyed the privilege of living in the City of Dana Point. I have attended most of the City Council meetings in recent years. I have jogged more than 8,000 miles on Strand Beach. It is time for me to give back!

After graduating from Penn State University and serving as a USAF officer, I began a long and extensive business career. I led companies and organizations with thousands of employees and members.

All of that pales in comparison to my main mission in life: Reducing Violence Against Women. In more than 270 national speaking appearances, I have (and continue to) championed the cause to fight this raging epidemic! Why? Because I care! I care about the women of Capistrano Beach, Monarch Beach and Dana Point.

I care about our three most treasured assets: the beaches, the harbor and a host of wonderful residents. I pledge, as a member of the Dana Point City Council, to maintain, nurture, promote and protect this very special place. I ask for your vote on November 7. Give me the opportunity to help you in "Harboring the Good Life."

I care!
