

**DON BANKHEAD
CITY OF FULLERTON
MEMBER OF THE CITY COUNCIL**

Fullerton is special to me. In my tenure on the Council I have worked hard to keep our city safe, strong and economically sound. We have received National and State recognition for our efforts to revitalize our downtown. A national magazine has designated Fullerton one of the ten best cities in the nation for its low crime rate, and our efforts to encourage businesses have won statewide praise.

When I retired as a Fullerton Police Captain, I determined to offer my experience and leadership to the city I love. I hold a Bachelor's in Criminal Justice and a Master's in Public Administration. As Mayor and Councilmember, I have made public safety and maintenance of our infrastructure a top priority. I will continue to support education, library services, youth services and cultural events that help make Fullerton a great place to live.

Fullerton has faced reduced revenues in a constructive manner. We have downsized and privatized where economically sound. While much leaner, we continue to enjoy that quality that makes Fullerton special. I will continue to work hard, listen, and be available to the people of Fullerton. I ask for your continued support and your vote on November 7.
