

**PAM KELLER
CITY OF FULLERTON
MEMBER OF THE CITY COUNCIL**

I believe in building Fullerton's future. As a long-time resident and former teacher, you can count on me to be the leader that will bring people together, listen, and generate new ideas. As Executive Director of the Fullerton Collaborative, I work with residents, businesses, and organizations to improve Fullerton.

Fullerton is a city in crisis - do we become an urban jungle like LA or Santa Ana? Together, we will plan our city where everyone can live in an environment of first-class businesses, educational, recreational and cultural institutions.

I will protect Fullerton from outside developers. I will not accept developer contributions to get elected. I support planned growth driven by residents.

I will provide increased methods for public input and want to prevent further reduction of public comments at council meetings.

I will preserve our quality of life by supporting plans that solve parking, traffic, pavement and infrastructure problems while insuring fiscal responsibility.

I have a Bachelors degree from CSUF and have been a Fullerton Commissioner. I have no political ambitions other than to do a great job representing you and your family. You'll find me approachable and I want to hear from you. Please call 714.336.6910 or visit www.pamkeller.com.
