

**LACTAN NUYGEN
CITY OF GARDEN GROVE
MEMBER OF THE CITY COUNCIL**

A resident of Garden Grove since 1994, I really appreciate the city in providing a safe and friendly living environment. Now, I would like to have an opportunity to serve the diverse community of Garden Grove.

I am running for the office of council member because I want to help the city solve long-term financial problems, get its fair share of revenue for street repair, improve sewer maintenance system and public safety by adequately and effectively use County, State and Federal resources. The city must control its expenditures and eliminate all wasteful expenses in order to become an efficient government body accountable to its citizens.

We must promote economic development by keeping taxes low, bringing in new quality businesses, jobs and revenues. We must maintain a prosperous, safe and secure environment by fighting crime and gangs, and keeping drugs off the streets.

I would like to make the city of Garden Grove a better and safe place to visit, live, work and play, a place to be proud of, a harmonious community with a stable economic growth and a quality of life for everyone. I believe I can achieve these goals and I need your vote.
