

**GIL COERPER
CITY OF HUNTINGTON BEACH
MEMBER OF THE CITY COUNCIL**

As Mayor Pro-Tem, it has been a privilege serving on City Council since December 2002. With your help I look forward to another four years.

My highest priority is public safety. As a retired police officer for 39 years in this City, and a military veteran, I know the importance of public safety personnel to our quality of life.

When citizens restored Shipley Nature Center, I sponsored a City Council action to have City staff work with the Friends of Shipley Nature Center to build a parking lot and design the entrance sign. Smoking on our beaches is banned by an ordinance I introduced. I led City Council's effort to adopt Camp Pendleton's Third Battalion, First Marine Regiment.

Sound City finances are another priority as I have voted for balanced budgets every year. I look for new ways to improve the business climate and create jobs. Communities prosper when city government provides an atmosphere for economic expansion of existing and new businesses. Our City should constantly strive to meet the needs of our businesses.

Finally, I believe in property rights and will not support eminent domain that limits an owner's ability to use their property.

Re-Elect Gil Coerper.
