

**JILL HARDY
CITY OF HUNTINGTON BEACH
MEMBER OF THE CITY COUNCIL**

It has been my privilege to represent you on the Huntington Beach City Council, and to serve as Mayor in 2005. I am running for reelection so I can continue my public service role as your eyes, ears, and voice at city hall.

I am a fourth-generation resident of HB who has been concerned about local civic affairs since I was the Edison High School representative on our city's Youth Board. I earned my BA in Economics/Mathematics at UC Santa Barbara and my MA in Economics from CSU Long Beach. I have also served the community by teaching mathematics, economics, and Model United Nations at Huntington Beach High School for twelve years.

I care deeply about how the people of our city feel, how the city is run, and what we can do to improve our community. In my first term as a Councilmember I am most proud of my efforts to preserve open space. Our city needs leaders who can make tough, fair, and balanced decisions that both preserve our past and build our future. I intend to continue listening and provide ethical leadership for Huntington Beach.
