

**CATHY GREEN
CITY OF HUNTINGTON BEACH
MEMBER OF THE CITY COUNCIL**

As your Councilmember and former Mayor, it is exciting to see progress in our community! Budgets have been balanced without raising taxes. Our city continues to be one of the safest in the nation. I have encouraged business while protecting the environment.

Business expansion, bringing new revenue to Huntington Beach, includes Bella Terra Mall, Target, Hyatt Regency, Lowes, remodeling shopping centers, and Boeing adding 3700 Huntington Beach jobs.

As a founding member of Amigos de Bolsa Chica, I care about the environment. The Bolsa Chica is restored, a 52 acre wetland near Newland/PCH is saved and oil tank farms removed. I am working with the County to acquire 100 acres overlooking Bolsa Chica for a park. I've supported recreational and special programs for all ages.

Major improvements have been made to infrastructure: street repairs, sewers, replacing trees, damaged sidewalks, and potholes. A priority is controlling runoff from inland cities to protect our beaches and harbor.

While holding positions on Orange County Transportation Authority, Waste Management and Chair of Orange County Harbor, Parks and Beaches Commission, I have brought regional money and infrastructure improvements to Huntington Beach.

Continue the progress! I offer you my experience and commitment and ask for your vote.
