

**BETH KROM
CITY OF IRVINE
MAYOR**

As Mayor, I focus on what really matters — safe neighborhoods, well-planned communities, properly maintained roads, excellent schools, programs for youth and seniors, and outstanding parks and recreation facilities.

Working full-time as your Mayor, I'm proud of what we've accomplished.

Irvine is the Safest City in California. During my term, we've produced back-to-back balanced budgets with surpluses nearing \$20 million dollars. We invested in new technology to upgrade traffic signalization, and we invested in the future through the Irvine Educational Partnership Fund, expanding City support for local schools and enhancing Irvine's reputation as one of the "100 Best Communities for Young People in America."

The airport is dead. With master-planning for the Great Park well underway, we are creating a legacy project for all to enjoy. Yes, Irvine is growing. But we're growing as planned, while maintaining the highest standards and expanding our permanently preserved open space.

I led the City Council in adopting Orange County's strongest Ethics and Lobbyist Control Ordinance. My values have been shaped by my experience as an educator, businessperson and mother. I will always work to earn your trust and your vote.

Irvine is a wonderful city. Let's keep things moving in a positive direction.
