

**CHRISTINA L. SHEA
CITY OF IRVINE
MEMBER OF THE CITY COUNCIL**

As your City Councilwoman, and former Mayor, I fought along side our community leaders defeating the El Toro Airport. I was one of the original council members supporting our Great Park Plan, the most exciting park plan, for the 21st century. I presently serve on the Great Park Board of directors.

Irvine is one of the safest cities in America. Our community parks and open space preserve are nationally recognized. Our schools, childcare, youth, senior and athletic programs are among the states most outstanding. We have a cohesive multicultural community. Our City's budget is balanced with a \$17 million surplus and our reserves above recommended minimums.

As we look to the future, we must confront challenges before they become major problems. Our traffic circulation system requires immediate attention. We should not accept gridlock on our streets. Our roads must be maintained to our highest standards. Monitoring and controlling excessive growth is essential to our quality of life.

My commitment is to our community. We must protect the integrity of our City with responsible oversight, well funded schools, strong public safety, managing future growth, maintaining athletic and childcare programs, while protecting our seniors, without new taxation. Thank you for your support.
