

**MARY ANN GAIDO
CITY OF IRVINE
MEMBER OF THE CITY COUNCIL**

I ask for your support to serve again on the Irvine City Council. I'm running because I want Irvine to always be America's leading master-planned city.

Shortly after Irvine's incorporation, I served as a Planning Commissioner, working on the Irvine General Plan — the plan that continues to this day to guide and control development.

Later I served two terms on the Irvine City Council, working to establish new parks and to save open space.

Currently I serve as the Mayor's appointee and Chair of the Irvine Planning Commission. Now, I want to return to the City Council committed to the following:

Irvine must maintain control of the 1347-acre Great Park to guarantee it's designed and built to Irvine standards, and never turned over to County politicians.

We must continue to invest in public safety, maintaining Irvine's position as America's Number One Safest City.

We must invest more to improve traffic flow and "keep Irvine moving."

I recently retired as Vice-President for the St. Joseph Health System, enabling me to devote full time to public service. With continuing optimism for Irvine's future, I ask for your vote so I can once again serve as your Irvine City Councilmember. Thank you!
