

**BILL MAVITY
CITY OF IRVINE
MEMBER OF THE CITY COUNCIL**

Irvine's leadership should be independent, logical and unbiased. City issues must be decided on what's best for you, your family, and your home investment. Irvine must be governed by competence, not cronyism.

For 14 years I've served Irvine - first, as Transportation Commissioner; then as a City Council Executive Assistant; and since 2002, as a Planning Commissioner. Currently I'm Vice-Chair.

My decisions on the Planning Commission have always been guided by one principle — what's best for Irvine.

My main goal is to address traffic problems and permit growth only through "smart" planning. I will only support development when it's compatible with our traffic capacity and doesn't interfere with neighboring businesses.

Irvine police, fully staffed, must have the latest equipment.

I won't sacrifice one Sister City for another.

I support Affordable Housing blended with standard housing, not All-Affordable Projects which cause social stigma.

I'm intimately familiar with grassroots issues of home ownership, property values, and community aesthetics through my 20+ years of service on the Woodbridge Village Board. I will apply that experience directly to City planning.

I will serve you as an experienced leader, with a demonstrated track record of integrity, honesty and objectivity. Thank you for your consideration.
