

**TONI ISEMAN
CITY OF LAGUNA BEACH
MEMBER OF THE CITY COUNCIL**

Mayor Pro Tem

For eight years I've demonstrated my ability to find solutions to our most pressing issues.

Summer shuttles carry visitors and residents to lessen our parking and traffic issues.

The Village Entrance stalemate ended when I helped broker a compromise that saved enough parking at ACT V to ensure peripheral parking in the future.

I co-chaired the Wastewater Committee. By replacing our aging infrastructure and funding needed repairs to our sewer system, we have virtually reduced our sewer spills. Next we must address the polluted waters of Aliso Creek.

I've asked the police to help move traffic at our most congested intersections. We updated our noise ordinance and I requested enforcement when modified Harleys rattle through our town. I am working for a quieter Laguna.

The Design Review Task Force clarifies and streamlines the process—saving time, money and reducing the angst of remodeling. We must end the oversized houses that don't fit into our neighborhoods. Grading our hillsides to bury monoliths is not the answer.

I need your support so I can continue to protect our unique town. I stand strong to preserve Laguna. I'm a firm and fair negotiator. And I listen to you.
