

**VERNA ROLLINGER
CITY OF LAGUNA BEACH
MEMBER OF THE CITY COUNCIL**

Retired City Clerk

As your elected city clerk for 29 years, I dedicated myself to providing personalized service to each and every person who came to City Hall. I was often your first point of contact.

I improved access to City documents and services, creating the city's first website and providing city documents online using the latest technology. I served as the City's legislative administrator, records manager, and elections official and made sure that we played by the rules and treated everyone fairly. Attending every City Council meeting for all those years taught me a lot about the issues Councilmembers deal with.

I am committed to making City Hall work better for you. I believe we can clean up our ocean, protect and increase our open space, serve residents' needs first and reestablish a customer service orientation starting at the top, implement innovative traffic solutions, protect our neighborhoods and stop mansionization using the existing General Plan and municipal code, support and promote our nonprofits, support artists and the arts, and protect the diversity that is so important to the character of Laguna Beach. I know and love this community and believe that together we can make it better.
