

**BARBARA VENEZIA
CITY OF NEWPORT BEACH
MEMBER OF THE CITY COUNCIL, DISTRICT 4**

City Council is the form of government that affects us most. It's what happens right outside our front doors. My goal is to unite the residents of Newport Beach and their Council Members so that we become partners in governing this great city, not adversaries, and that means listening. We need to understand and value everyone's opinion on public safety, water quality, emergency preparedness, traffic and growth.

I will work to see that City Council members are elected when there's a vacancy, not appointed; that City Hall is centrally located, without excessive cost to the taxpayers; that JWA does not expand its runways or flights. I will promote balanced, well-planned growth, not high-rises. Most of all, I will use common sense in every decision, large and small.

The people of Newport Beach are our best natural resource. They have invaluable expertise in so many areas and we need to tap into that resource. We need to simplify government, and above all, we need to work together to make this world-class city even better. For more information, please go to www.BVtoWin.com. I would be honored to have your vote on November 7.
