

**TOM CUTKOMP
CITY OF RANCHO SANTA MARGARITA
MEMBER OF THE CITY COUNCIL**

My family of five has called Rancho Santa Margarita home for ten years, enjoying the feeling of community, excellent schools, and business accessibility without the "big city" feel. I would consider it an honor to serve RSM as a City Council Member.

My qualifications include a degree in political science from UCLA, working as a public school educator in RSM for over a decade, and active membership and service as an elder at my Presbyterian church over the past 20 years. I will bring a versatile, multifaceted approach to the issues facing our city.

My areas of focus include:

- A balanced approach to city development and expansion
- Safety and traffic concerns around all local schools
- Conservative fiscal management
- Enhancement of youth/teen options

While the residents and business members of our city have many common goals, there are many competing interests as well. These varied interests must be carefully considered and thoughtfully balanced. Values such as respect for family, education, faith, and fairness are as important to our city as economic interests.

With your support, I will bring a fresh perspective to our City Council based on honesty, integrity, and a commitment to work for the residents of Rancho Santa Margarita.
