

**GARY THOMPSON
CITY OF RANCHO SANTA MARGARITA
MEMBER OF THE CITY COUNCIL**

As a member of the City Council, I have strived diligently to provide the leadership, integrity and work ethic in which you have placed your faith and trust in achieving our community goals. I am proud to have:

Supported public safety as a highest priority, resulting in RSM being named consistently at or near the top of the annual county, state and national lists of safest cities.

Overseen the continuing successful financial management of our city, ensuring RSM's long term fiscal stability.

Supported providing community amenities, services, events and programs, in particular those serving our teenage youth and our seniors, all of which have allowed our city to be nationally recognized as one of the best places in the country to live and raise your family.

Worked hard to successfully improve traffic circulation throughout the city.

I will work hard to:

Continue to implement new community programs that will further enhance the quality of life of our city's children, youth, seniors and families.

Continue to focus on the continuing process of improving traffic circulation wherever feasible.

Maintain our city's focus on public safety, fiscal discipline and lean government; a city long on service and short on bureaucracy.
