

**LONDRES USO
CITY OF SAN JUAN CAPISTRANO
MEMBER OF THE CITY COUNCIL**

Dear Neighbors,

I am asking for your vote for San Juan City Council.

I graduated from UCLA School of Dentistry in 1977 opened my practice in San Juan in 1980 and have lived in town for 11 years.

I was a founding board member of Charity's Best, they have raised hundreds of thousands of dollars in support of local charities. I have been a board member of our Chamber of Commerce and was the founding President of the Capistrano Animal Rescue Effort. During my tenure, we formed a nonprofit corporation, acquired a half acre and raised over \$100,000 to build a shelter. I left CARE to run the "No on Whispering Hills" measure which was soundly defeated by the voters. I have worked diligently trying to bring "sensible growth" to our community in an attempt to maintain the environment that brought most of us here.

If elected, I will balance property rights with the needs of the community and will take a proactive, out of the box approach to issues such as traffic, while bringing complete transparency to the process.

Thank you,
Dr. Londres Uso
