

**KIMBERLEY ANN MCCARTHY
CITY OF SAN JUAN CAPISTRANO
MEMBER OF THE CITY COUNCIL**

I am running for city council because there is a significant disconnect between the residents of San Juan Capistrano and the politicians elected to represent us. I moved here 6 years ago and chose this community specifically for the rural atmosphere and open space we all enjoy. Since my family's relocation, I have witnessed development out pace infrastructure and we are all paying the price.

I graduated from the city's leadership academy and my children attend both private and public schools. I have no professional or political ties to the community and therefore will only represent what is best for my constituents. I have a degree in Communications/Public Relations and am a straight shooter.

Transparency and honest discussion is what is sorely lacking in our city government. I'd like to see that change. Our city council never should have allowed the Whispering Hills Project after the residents voted no. The City also never should have committed \$1 million a year for 20 years from our redevelopment fund to CUSD'S unnecessary administration building on redevelopment property. They are throwing away valuable tax dollars, put to better use in our city. I will listen and respect the residents of San Juan Capistrano.
