

**DAVID M. SWERDLIN
CITY OF SAN JUAN CAPISTRANO
MEMBER OF THE CITY COUNCIL**

When first elected I promised to enhance our historic, small town equestrian lifestyle by controlling growth, improving traffic circulation, protecting open space, expanding our parks and trail systems, and preserving history.

Our downtown is revitalized, and the Historic Town Center Park is used for community events. Historic Los Rios Street will soon be joined with a 'River-walk'. The Sports Park and Community Center are thriving; Stonefield and Cooks Parks are regularly used for soccer and ball games.

Our ridgelines and open space are expanded and protected, and our horse and trail systems are dramatically enhanced.

I represent San Juan Capistrano on the Transportation Corridors Agencies, working very hard to take traffic off Ortega with the Foothill and La Pata extensions. Improving the Ortega Interchange and Roadway will shortly be underway.

Growth in our town is now tightly controlled, with only 100 new homes built per year for the last twelve years.

San Juan Creek Road remains rural and closed to through traffic. Working with the Ranch significantly reduced growth at our borders.

Our Mobile Home Parks remain supported and protected.

With your vote I will continue my best efforts to serve and protect our small town as your Council Member. Vote David Swerdlin.
