

**NEKODA MAE MATTOX
CITY OF TUSTIN
MEMBER OF THE CITY COUNCIL**

Citizens deserve respect. Citizens are the hard working men and women who are, essentially, the employers of every single government employee. This respect comes through allowing citizens to lead their lives with as little interference as possible from the government, the employees who are paid to serve them. It also comes through taking the utmost care and responsibility when it comes to handling the tax dollars intrusted with them. As a member of the City Council, I will not be commanded by unelected officials who are overly remunerated to rule the city from the background. I will have my own ideas and make things happen - such as easing the process of acquiring permits to aid our local businesses. I will use tax dollars wisely, and will not hastily spend the funds on business trips to Washington when, in this day and age of impressive technology, there are plenty of means of communication that are just as effective and much cheaper. A vote for me is not a vote for a polished politician, but a vote for a fellow citizen who wants a change - a change in the way Tustin does business. I earnestly and wholeheartedly request your vote in November.
