

**TRI TA  
CITY OF WESTMINSTER  
MEMBER OF THE CITY COUNCIL**

Occupation: Magazine Editor/Writer

I've always admired the beauty of cultural diversity in the United States – the land of hope and freedom for many immigrants. We as Americans all share one dream of making this country a better place to live and to love.

And I pledge to do just that for the City of Westminster should I become an elected official.

In 1998, after earning a BA in Political Sciences and while pursuing a MA in International Relations, I moved to Orange County to work as a State assemblyman's representative. In the past six years, Westminster has bloomed brilliantly from many angles. In my best possible endeavor, I'm determined to keep Westminster clean, sparkling, safe, and diverse. My mission is to bridge gaps between communities, generations, and all differences to make Westminster as unique and strong as she could be, while preserving her traditional distinctiveness.

As a community activist, member of Kiwanis International and Westminster Advisory Committee for the Disabled, former member of the Energy Committee, and former President of the Vietnamese American Community of Southern California, I vow to represent fairly for all Westminster residents who count on me.

Your vote will make it happen. Thank you.
