

**MARGIE L. RICE  
MIDWAY CITY SANITARY DISTRICT  
DIRECTOR, FULL TERM**

As a Director of Midway City Sanitary Board, I have served you with pride. We have given good service while keeping our cost below any in Orange County.

We are recycling at a 59% mandated by the state, thanks to you, the customer.

Our Board has a 20 year plan to repair and maintain infrastructures. We surveyed every pipe line with a video camera to detect any breakage, leaking or deterioration. We are rebuilding all pump stations and relining or replacing pipe lines that are 50 years old.

We have a fats, oils and grease program to keep our lines clear and stop spills.

There is a bulky item service monthly for large items and our drivers will help the frail or elderly citizens with their trash containers.

I am also, a member of the County Solid Waste Board to keep myself informed so I may serve you better.

I promise to continue to serve you in all areas as I always have. Call me anytime (714) 893-1732.

Margie L. Rice
