

**DON LANG
EAST ORANGE COUNTY WATER DISTRICT
DIRECTOR**

My wife, Joyce, and I have enjoyed living in the district for many years, raising three children in the Tustin school system. During that time, I have owned and continue to operate my business. In addition to my successful business career, I have a long history of volunteer service, serving as Chamber of Commerce President, Rotary Club President, Red Hill Volunteer Fire Department President and many years of coaching in Tustin Little League and Bobby Sox.

Water issues on both the State and local level have been a longtime interest of mine. My interest is providing a supply of quality water at affordable prices to our next generation without sacrificing our environment. I have visited every major water project in the State and have attended many State and County Water meetings. I regularly attend East Orange County Water District board meetings. I have a broad knowledge of the water industry and am very familiar with the challenges facing our Water District.

I know the people and the district. I have a proven record of community leadership and business knowledge. My election will bring a new and fresh perspective to the East Orange County Water District.

I appreciate your vote.
