

**TRUNG NGUYEN
ORANGE COUNTY WATER DISTRICT
DIRECTOR, DIVISION 1**

Orange County has been the home for myself and my family for more than 20 years. I chose to reside here because it has offered a great environment to raise my family.

I currently serve as a Board Member of the Garden Grove Unified School District. My education and career experience makes me a prime candidate for the OCWD. I have an Engineering degree from UCLA, a Master's from CSULA, and a law degree from Western State University. With a combination of more than 25 years working as an engineer and a lawyer I will solve OCWD's challenging issues. As our Division's population grows, the OCWD will need to tackle and solve future challenges in maintaining the quality and supply of water.

To sustain quality of life in Orange County, particularly in cities of Garden Grove, Stanton, Westminster and Midway City, OCWD needs to ensure a safe and reliable supply of water. I am committed to provide a fresh and energetic representation for the residents of OCWD Division 1.

I believe I will bring the right leadership and representation to the OCWD to meet our local needs. I will be honored to receive your vote on November 7.
