

**PLACENTIA-YORBA LINDA UNIFIED SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**NAME: JUDY (MINER) MILLER**

**OCCUPATION:** Governing Board Member, Placentia-Yorba Linda Unified School District

It has been my privilege for many years to serve the youth of our community as they prepare to become the leaders of society's future. My goals reflect our Board of Education's governing principles:

Students are challenged to make significant progress toward achieving their own life goals in a safe learning environment and served by a competent, nurturing staff. Parents of every walk of life, language and cultural background will be valued as partners in their children's education. Fiscal integrity and sound judgment will continue to govern the management of the District's resources.

This fall we are opening Valadez Middle School Academy in Placentia, and in the fall of 2009 we will complete Yorba Linda High School. These much-anticipated facilities, along with modernization of all of our older schools, have been possible with funds from two bond measures passed by this community. Conscientious fiscal oversight has governed every step of these projects.

Placentia-Yorba Linda Unified School District enjoys an outstanding reputation in the State of California for excellent educational programs, personnel and facilities. With your support, I would be honored to continue to serve on its team of elected leaders.
