

**COSTA MESA SANITARY DISTRICT  
DIRECTOR**

**NAME: ART PERRY**  
**OCCUPATION: Teacher**

I have resided in Costa Mesa for over 50 years and have served on the Board of Costa Mesa Sanitary District since 1992. I am currently serving as President of the Board.

I graduated from Costa Mesa High School in 1964 and California State University Fullerton in 1969. Since 1970 I have been on the staff of Estancia High School serving as its Activities Director, Athletic Director, teacher and coach.

As a board member it has always been my objective to maintain our city's sewer and trash fees at the lowest possible rate while still maintaining high quality programs such as large item pick-up and the sewer/lateral assistance programs. The Board of Directors has secured a \$12 million dollar grant in collaboration with the O.C. Sanitation District to close down 6 pumping stations which save on future power costs. The Board was also successful in obtaining a \$40,000 grant for use in our solid waste management program.

I have actively involved myself in various community groups and organizations, and am eagerly looking forward to continuing my efforts. The residents of Costa Mesa deserve the best representation possible and I will continue in my efforts to ensure they receive it.
