

**MOULTON NIGUEL WATER DISTRICT
DIRECTOR, DIVISION 5**

NAME: BETTY PEQUET

OCCUPATION: Appointed Incumbent

As a native Californian serving the people of Laguna Niguel is a first priority with me. Our most precious staple of life is water. Serving Moulton Niguel Water District as an appointed director in 1995-1996, again in 2007-2008 and a member of the Citizens Advisory Board has given me an incite into the water concerns of our area. Visiting the various source of our water supply was a must for me to see Diamond Valley Lake, Lake Havasu, Lake Mathews, Lake Mead, Lake Skinner and the Colorado River.

Some of the facilities visited were Hoover Dam, Diemer Water Treatment Plant, LN Reclaimed Water Plant and new water facilities.

My personal goals are:

- Safe drinking water
- Satisfied customers
- Lowest rates
- Financially sound
- Dedicated employees
- Continue pursuing new technology
- Increase water storage
- Increase use of reclaimed water

I have served on the following:

- Rotary Club (president)
- LN Chamber of Commerce (steering committee, treasurer and president)
- Monarch Bank (now US Bank) Advisory Board (chairperson)
- YMCA fund raiser 2007
- Nominee for LN Citizen of the year
- Elected member of LN Community council

I would be honored to be your Director. Your vote would be appreciated.
