

**MOULTON NIGUEL WATER DISTRICT
DIRECTOR, DIVISION 5**

NAME: BRIAN S. PROBOLSKY **AGE: 38**
OCCUPATION: Laguna Niguel Commissioner/Businessman

Providing Laguna Niguel with high quality water at affordable prices is my top priority. As your Laguna Niguel Commissioner I oversee public water usage for numerous city properties.

We are fortunate to have a reliable supply of high quality water at reasonable prices. But there is a real threat of drought and the chance that imported water supplies from Northern California could be restricted. This means we need to conserve locally and use innovative techniques, like using recycled water to irrigate public parks and medians to make sure there is an adequate supply of water for future generations.

Since 2007 I have been your Orange County Parks Commissioner, additionally, I volunteer as a board member for the Saddleback College Foundation and as president of the Kite Hill Homeowners Association.

I am proud to have the support of Orange County Water District President Steve Sheldon, State Assemblyman Todd Spitzer, Laguna Niguel Mayor Paul Glaab, Capistrano Unified School District Trustee Ken Maddox and many other community leaders.

My wife Sharon and I are long time residents of Laguna Niguel where we feel blessed to raise our children.
