

**MOULTON NIGUEL WATER DISTRICT  
DIRECTOR, DIVISION 6**

**NAME: LARRY MCKENNEY**

**AGE: 47**

**OCCUPATION: Water Resources Consultant**

I am a 14-year resident of Aliso Viejo and have been a professional in water resources for more than fifteen years. I worked as the water rights attorney for the U.S. Marine Corps, an attorney in private practice specializing in water issues, the Director of Camp Pendleton's Office of Water Resources, and the Director of the County's Watershed and Coastal Resources Division before joining a planning and engineering firm a year ago to practice watershed management.

I graduated from the U.S. Naval Academy and the University of Texas School of Law. I served 22 years in the Marine Corps, active and reserves. I served on the Parks Committee and on the Board of Directors of the Aliso Viejo Community Association. I serve now on the boards of three water-related nonprofit organizations.

My experience taught me the importance of wise water resources policy and good stewardship, and the need for diligent management of infrastructure. I am a proven leader, able to foster collaboration, control spending, ensure delivery of excellent service, and treat employees fairly. I know how an effective organization ought to be run, and how valuable a strong elected leader can be for a community and for an organization.
