

**ORANGE COUNTY WATER DISTRICT
DIRECTOR, DIVISION 4**

NAME: PHILIP L. ANTHONY

OCCUPATION: Director, Orange County Water District,
Division 4

It is an honor and a privilege serving as your Director on the Board of the Orange County Water District.

This District manages our vital Orange County groundwater basin supplying 2/3 of your water.

I have represented you for many years, always working hard to protect and improve our invaluable groundwater. Groundwater is our purest, most reliable and lowest-cost water. As a trained scientist and experienced Director, I'm committed to keeping it that way.

Water conservation, education and recycling are more important than ever with the worsening drought. For years, I've been working to develop, design and build our Groundwater Replenishment System, one of the world's largest water recycling projects. I'm proud to tell you recycled water production started last January, giving you a major local drought-proof supply of new water.

I'm a founder of the Orange County Water Advisory Committee, our Groundwater Guardian Team and our annual Children's Water Education Festival.

I was honored with the Groundwater Foundation's "National Government Service Award."

Other community service includes: Boys & Girls Club, Board President; Kiwanis Service Club; Orange County Tax Payers Association, Director and Past President.

My only interest is to represent you effectively. Call anytime with your ideas or questions (714-899-8020).
